Dear Sir/Madam ,

I am writing this letter of recommendation for Renew Enterprises as a current customer of the business. I have been working closely with Renew over the last six months on upcycled garden furniture for a community based garden and education project in Waterford City.

I have ordered several pieces of garden furniture and art installations from Renew and I have been most impressed and extremely pleased with the products created for us by Renew. It has been a pleasure to work with all of the Renew staff and I have found them to be most accommodating and understanding of my requests regarding specific items.

The items which were ordered for the garden project ranged from simple benches and planters right through to the conversion of old bicycles into innovative planters and the production of a beautiful garden bench integrated into a pergola.

At all times I have found the staff to be extremely helpful, offering ideas, knowledge and expertise when required, no task or challenge was too difficult for them.

I have no hesitation in recommending Renew to any person seeking a professional, reliable and innovative enterprise with a focus on producing items of the highest quality.

I have attached some images of the items installed in the garden, which we are delighted with. Please do not hesitate to contact me if further information is required regarding this letter of recommendation.

Yours sincerely,

Emer O' Keefe
